

1                   **Amendments to Abstract:**

2                   On page 10, lines 2-10, please replace the paragraph with the following amended  
3 paragraph:

4                   A sanitizing hairdresser's implement holder that enables a hairdresser to easily hold a  
5 plurality of implements on his or her body when cutting hair. The holder includes a holster  
6 with a plurality of comb and scissor pockets, each designed to receive a vertically oriented  
7 comb or scissor, respectively. Located inside some or all of the pockets is a removable sleeve  
8 made of plastic or paper. The sleeves ~~are designed to~~ have an outer shape that matches the  
9 general shape of the implement. When the sleeve is used with a scissors pocket, it is conical  
10 with a wide top opening so that the pair of scissors are held in a vertical alignment when  
11 placed therein. The sleeves are may be imbedded or soak with an antimicrobial agent that  
12 disinfects the implement when placed into the sleeve after each use.
